

CODE OF CONDUCT

Reliance Industries Limited

Dear Colleague,

Welcome to Reliance Code of Conduct. This is our guide to doing the right thing in business. It is a must-read and a must-follow for all of us.

Nothing is more important to Reliance than making sure we do what is right – and nothing puts us at risk more than failure to do it.

In “Our Code” and “Code of Conduct” we are focused on the most important principles and expectations rather than specifying detailed rules. It does not specifically address every potential form of unacceptable conduct, but I believe that we are fully capable of making the right decisions when faced with difficult choices and that we will be guided by our good judgment. In case of any doubt, as to the course of action to be taken, the following test may be applied:

- Is it legal?
- Is it ethical?
- Could it cause a negative perception of the Company?

But we should never feel that we must “go it alone” when we are unsure of what is the right thing to do. One of the responsibilities we share is to seek guidance from our managers or other internal sources when we need it.

Please have the courage to speak up if you see anything that appears to breach this Code. Your concerns will be considered seriously - and Reliance will not tolerate retaliation against anyone.

Our Values and Behaviors are the foundation for our Code. They define how each of us must act to ensure that Reliance sustains its reputation and continues to earn the trust that allows us to prosper as a Company. As you read this Code, be guided by its expectations and continue to live out our values in your work every day.
